

## Logging In Students for Hour Of Code

1. You will need the student login cards. To print them, sign in to your account. Click on “Students and Progress.” Then click on “Manage Students.” At the bottom of the page you will see a place to print the login cards.

### Teacher Home Page

Welcome to the new and improved teacher dashboard. Watch this video for a tour of the new features!

Section	Login Type	Grade	Course	Students	Section Code		
<b>Demo</b> Manage Students	picture	5	frozen	0	DYOLLT	Edit	Delete

Share this section's sign in page with your students:
<http://studio.code.org/sections/DYOLLT>

Print out cards with your students' login information.

3. Students will click on their name.

### Welcome to Demo

Choose your name

Malfoy Hermione Ron Harry

Now find your secret picture

4. Then choose their login picture. And click “Sign In” at the bottom of the screen.

5. The first time they login it will ask them their age. For more info on Code.org’s student privacy policy, [click here](#). They won’t be able to login without choosing their age.

### Account Information Update

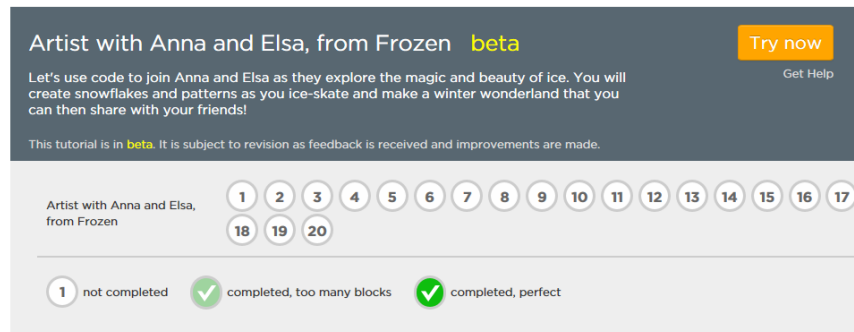

We’re in the process of updating our experience to provide you with even stronger privacy protections. To do this, we need existing users to enter their age here.  
As always, code.org will never rent, sell or share this information with any third parties.

Your age

Continue

If you do not wish to provide your age you may sign out.

6. It will then show what they are working on. Students will click “Try Now” or “Continue”

7. If students finish their Hour of Code early, they can click on their name and choose “My Progress.”

8. It will then show other courses that they can try.
