Digital Curriculum Samples

Compass Learning Odyssey Math (Algebra) Jim Hardwick 501-920-2800

<http://compasslearningodyssey.com/systemrequirements.html> This one will take you to a screen where you will see near the top a “Check System” button. That will allow the participant to check the computer that they are using and be sure it has the necessary plug-ins, etc. to run the lessons successfully. It is very self explanatory.

<http://www.compasslearning.com/sampleactivities.aspx> Clicking on this link will take you directly to the lesson menu I described where teachers could easily preview samples lessons by grade level and curriculum or course.
