

We are sending you this e-mail to let you know about this event that is being offered to 4th, 5th, and 6th grade classes on November 12, 2013 from 9:00 AM to 2:00 PM at the Salt Lake Community College Miller Campus located at 9750 S 300 W, Sandy, Utah. Could you please forward this to the appropriate grade level teachers if this does not apply to you?

The GIS Day event presents GIS as a technology and demonstrates how it can be used in the classroom and throughout students' daily lives. Students learn about GIS and other geo-spatial technologies and how they are used in the real world. Teachers will learn how GIS and other geo-spatial technologies can be used to enhance classroom learning.

UGIC "GIS Day" transportation grants are available to reimburse each qualified participating school up to \$250 per school towards the cost of busing the students to and from the activity. See attached flyer for more details.

The format of the event is to have 4 half hour sessions totaling 2 hours. We will be scheduling schools to arrive on the hour and half hour starting at 9:00 AM with the last arrival at 12:30 PM. Time slots will be filled in the order they are requested until they are full, so please contact Tricia Cannon quickly to reserve a time. **If you wish to participate please reply to this e-mail with the following information:**

School Name

Grade

Primary Contact including e-mail and phone number

Number of students

Number of adults

Time requested

See Flyer for complete details and contact information on this event. We look forward to your participation in Utah GIS Day 2013.
